

CERTIFICATE

no.: 018 S

This is to certify the

**Occupational Health and Safety
Management Systems**
of

EXIMPROD ENGINEERING S.A.

Head office: Romania, Buzau, No. 1, Transilvaniei Street, 5th Floor, Buzau County

Working location: Bucharest, District 2, No. 2C, Gara Herastrau Street, 2nd floor

Working location: Bacau, No. 41, Vasile Alecsandri Street, 3rd Floor, Bacau County

Working location: Iasi, No. 42-44, Tudor Vladimirescu Boulevard, 3rd Floor, Iasi County

Working location: Cluj Napoca, No. 18-20, Dorobantilor Street, 7th Floor, Cluj County

Complies with:

SR EN ISO 45001:2023 / EN ISO 45001:2023

- Domain:
- Design, sale, service, technical assistance and consultancy for materials, equipment, appliances, distribution switchboards and control panels for installations, networks, power stations, automation systems and management of distributed electrical equipment in the voltage field ranging from 0,4 to 400 kV;
 - Design and engineering of electrical systems and dispatching of electrical grids in the range 0,4 – 400 kV;
 - Engineering of various electrical equipment: command, protection and automation boards, boards for substation internal service for AC and DC applications, connection enclosures for VTs, distribution boards and other different kinds of electrical enclosures etc.
 - Implementation of SCADA, automation and information technology systems;
 - Performing of specialized works for protection and automation systems in electrical substations;
 - Construction of overhead and underground lines with rated voltage between 110-400 kV;
 - Performing of specialized works in the medium voltage side of the stations and substations;
 - Construction of electrical stations and substations and electrical side of power plants;
 - Extrajudicial technical expertise regarding the design and execution/construction of power technological systems for industrial applications;
 - Consultancy in energetics and informatic systems;
 - Checking of electrical equipment and installations in order to certify the compliance of wind (CEE) and photovoltaic power (CEF) plants with the applicable technical norms;
 - Checking of conformity of wind and PV farms with existing regulations;
 - Testing of electrical equipment and systems;
 - General supplier of materials and equipment for projects in the voltage field ranging from 0,4 to 400 kV;
 - General contractor for carrying out „turn-key” projects in the voltage field from 0,4 to 400 kV.

The domains for each working unit are detailed in the annex.

Audit Report No. 2074/07.07.2026

Recertification Date:

07.28.2026

Expire Date:

07.27.2029

Initial Certification Date:

07.04.2005

Certificate Validity is conditioned by the annual surveillance audits, confirmed by audit reports and by MS recertification with its complete reassessment before the expiry of validity period (3 years).

This certificate may be withdrawn or suspended, if during the surveillance audits it is found the conditions required for its approval are not adhered to.

C.A. President,

Eng.

Constantin AVRAM
